

To all VOG III owners,

We understand that there are concerns about the landscaping. We met with the manager from Millennium on Thursday 1/22/26. We went over the concerns that we were told by the owners and a list that the board had. We also reviewed the contract that we both agreed to. They have a list of issues that they must correct. In the meantime, we are requesting that all owners refrain from asking the lawn crew to do anything. Please place a workorder in for your concern. By doing this we accomplish two things. 1- we have record of the concern and 2- the lawn crew will have one point of contact, the board.
