

TO ALL VOG III RESIDENTS

If you have wanted to replace an old-style outdoor light or just replace a rusted/shabby light, the Board of Directors has an easy way to do that.

We have come across a black light at Home Depot that is very similar to what most of us have now, but in black. Sorry, the bronze finish is just not to be found at a reasonable price.

1. If you purchase the light yourself, let Odesti know you have it and he will install the light.
2. Tell Odesti (in person or via a Work Order) that you would like him to pick up a light for you. At the time of installation, you need to give Odesti a check for \$38.00 made out to VOG III. No check, no installation.

Owners who purchase the light themselves will have priority in installation time.

Purchase at Home Depot. Article 240 177 \$35.00
