VILLAGE ON THE GREEN SOCIAL COMMITTEE UPDATE

Submitted by John Stover, Board President-VOG Recreational Association
(Edited by Chris Carlee)

It was announced in the three previous issues of *Village News* that the VOG Social Committee was disbanding. There were six active members of that committee. They were responsible for the planning and carrying out of Clubhouse events put on throughout the year. Many of those committee members had been a part of that important work for over 25 years and were faithful in this endeavor. With the lack of new members joining the Social Committee, they felt they could no longer put on these events alone. The President of the Recreation Association has received calls asking what the Recreation Association Board's plan is.

The Social Committee's work is not a required function of the Recreation Board. Therefore, the Recreation Board will NOT be assuming the functions of the Social Committee. However, the intention of the Recreation Board is to see if there is any interest in the formation of a new Social Committee. If there is, John Stover, Recreation Board President, will offer to assist in any way he can. He has set the date of September 14, 2019 at 10:00 a.m. in the Clubhouse to hold a formation meeting. A notice will be posted on the Clubhouse doors in mid-August 2019 as a reminder. Anyone who is interested is welcome to attend. For questions, feel free to contact John Stover at (517) 227-2615.

RECREATIONAL ASSOCIATION UPDATE

"FRONTSTEPS: A RESIDENT'S GUIDE"

Submitted by John Stover, President

The Recreation Board is launching a new website through our management company, Citadel Property Management Group. As it develops, this website will contain valuable information concerning the recreation facilities and activities here at Village on the Green. The website is called "Frontsteps: A Resident's Guide." Web address: <https://villagegreenrec.evercondo.com>. In the upper right corner click on "sign up" and follow the instructions to set up a logon password.

CONDO III BOARD UPDATES

Guidelines When Leaving Your Property: Always turn off the water to your unit whether leaving for a few days or longer. The shut-off valve is outside your unit, in most cases on the wall under your front bedroom window. Those in 2-story condos will find the shut-off valve on the left for downstairs, on the right for upstairs. It is also recommended that the water to the washing machine, toilets and sinks be turned off. The hot water heater can be turned off at the breaker. Electricity should always be left on. Set the AC no higher than 82 degrees. This is imperative to avoid buildup of mold and mildew inside your unit and perhaps in adjoining units. Leave a key with a friend, neighbor or Board member and have them check your unit every couple of weeks.

VOG Condo III Has a New Website! Our website address is villageonthegreen3.com. A new on-line work order form is there as well as other helpful documents including: Bylaws, Rules and Regulations, Board Meeting Minutes, Hurricane Preparation Checklist, the *Village News* newsletter and event calendar.

Editor's Note: The *Village News* is not produced in the summer months. The next issue will be October 2019.
