COYOTES

Submitted by Gwen Stuler, VOG CONDO III (edited by Chris Carlee)

Coyotes inhabit all 67 counties of Florida. Some have moved into urban neighborhoods when their natural habitat disappears as a result of new construction. Village on the Green is no exception. Do not be alarmed if you see a coyote but do be sure to keep your dogs on a short leash and your cats inside as much as possible. A dead cat was recently found that possibly could have met its demise from a coyote attack.
